SUMMARY

Computer Science graduate with hands-on experience in Python, Django, Flask, SQL, JavaScript, and responsive web development. Skilled in building AI-powered web applications, REST API integration, authentication systems, database management, debugging, and problem-solving. Seeking entry-level opportunities in Software Development, Web Development, IT Support, or QA roles.

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Web Development:** HTML5, CSS3, JavaScript
- **Databases & Frameworks:** SQLite, Flask, Django
- **Developer Tools:** Git, GitHub, VS Code, Render
- **Core Concepts:** OOP, SDLC, REST APIs, API Integration, Authentication Systems, CRUD Operations, Debugging, Database Design, Responsive Web Design, Problem Solving

INTERNSHIP

- **Web Development Intern | Prodigy InfoTech | Sep 2024 – Oct 2024**
 - Developed responsive web applications independently using HTML, CSS, and JavaScript.
 - Improved user experience and application responsiveness across multiple devices.
 - Optimized code through debugging while demonstrating adaptability and task management skills.

GitHub: <https://github.com/Ashritha-16/Web-Development-Projects>
Live Demo: ashritha-16.github.io/Web-Development-Projects/

PROJECT

- **SmartChat-AI Web Application (Individual Project)**

Tech Stack: Python, Flask, HTML5, CSS3, JavaScript, SQLite, Google Gemini API

 - Developed a full-stack AI chatbot using Flask and Google Gemini API.
 - Implemented secure user authentication and session management.
 - Integrated REST APIs for AI response generation.
 - Built chat history storage using SQLite and SQLAlchemy.
 - Designed a responsive UI with dark mode and voice input.

Demo: <https://smartchat-ai-r3qu.onrender.com/>
- **Early Detection of Depression from Social Media Posts | Team Project | Jan–Apr 2025**

Tech Stack: Python, Django, Machine Learning, HTML, CSS, JavaScript, SQLite

 - Developed an NLP-based system for depression detection from social media posts.
 - Preprocessed Twitter data using text cleaning and feature extraction techniques.
 - Implemented SVM, Naive Bayes, and Decision Tree models for prediction.
 - Achieved highest performance using SVM with an F1-score of 0.89.
 - Contributed to Django web development, testing, and documentation.

EDUCATION

B.Tech – Computer Science & Engineering | Chebrolu Engineering College | 2021–2025 | CGPA: 7.88

CERTIFICATIONS

- SQL Joins Certification Course | Cuvette Tech Pvt. Ltd. (by IIT Kharagpur alumni) | March 2025
- CSS (Basic) Certification | HackerRank | March 2025
