PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python, Django, Flask, SQL, JavaScript, and web application development. Built full-stack and machine learning projects involving REST APIs, authentication systems, database management, and NLP. Strong in problem-solving, debugging, and analytical thinking, seeking entry-level roles in Software Development, Web Development, QA Testing, and IT Support.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, JavaScript
- **Web Technologies:** HTML5, CSS3, Responsive Web Design
- **Frameworks & Libraries:** Django, Flask, SQLAlchemy, Scikit-learn
- **Databases:** SQLite, MySQL
- **Web & API Development:** REST APIs, CRUD Operations, JSON, API Integration
- **Tools & Platforms:** Git, GitHub, VS Code, Render
- **Testing & QA:** Software Testing, Debugging
- **AI / ML:** Machine Learning, NLP, Classification Algorithms
- **Core Concepts:** OOP, DBMS, SDLC, DSA, Authentication, Session Management, Problem Solving

PROJECTS

- **SmartChat-AI Web Application (Individual Project)**
 - **Tech Stack:** Python, Flask, SQLite, SQLAlchemy, HTML5, CSS3, JavaScript, Google Gemini API
 - Developed a full-stack AI chatbot using Flask and Google Gemini API for real-time conversational responses.
 - Implemented user authentication, session management, and chat history storage using SQLite and SQLAlchemy.
 - Integrated Google Gemini API with error handling for HTTP 429 and 503 responses to improve application reliability.
 - Developed a responsive user interface with dark mode, voice input, and chat management features.
 - Implemented password hashing, input validation, and secure API key management to enhance application security.

- **Early Detection of Depression from Social Media Posts | Team Project | Jan–Apr 2025**
 - **Tech Stack:** Python, Django, Machine Learning, NLP, Scikit-learn, HTML5, CSS3, JavaScript, SQLite
 - Developed an NLP-based web application for depression detection from social media posts.
 - Performed text preprocessing, tokenization, stop-word removal, and TF-IDF feature extraction on social media datasets.
 - Implemented and evaluated SVM, Naive Bayes, and Decision Tree models for depression prediction.
 - Achieved the highest performance using the SVM model with an F1-score of 0.89.
 - Contributed to Django web development, user authentication, testing, and technical documentation.

INTERNSHIP EXPERIENCE

- **Web Development Intern | Prodigy InfoTech | Sep 2024 – Oct 2024**
 - Developed responsive web applications using HTML5, CSS3, and JavaScript.
 - Built and tested frontend components, ensuring cross-device compatibility and UI responsiveness.
 - Applied debugging techniques to identify and resolve application issues, improving code quality.
 - Followed SDLC practices throughout development, testing, and deployment phases.

EDUCATION

B.Tech – Computer Science & Engineering | Chebrolu Engineering College | 2021 – 2025 | CGPA: 7.88/10

CERTIFICATIONS & TRAINING

- Python Full Stack with AI Integration | VCube Software Solutions Pvt. Ltd. | Ongoing
- SQL Joins Certification Course | Cuvette Tech Pvt. Ltd. (by IIT Kharagpur Alumni) | March 2025
- CSS (Basic) Certification | HackerRank | March 2025
